SERVICE POINTS

Branch network

Our full-service branches are located nationwide. What makes our full-service branches different from our 24-hour legal contact centre and express branches is that at a full-service branch you can have a face-to-face consultation with one of our legal advisors, you can collect your membership card, legal membership agreement, newsletter, and also pay your premiums at selected branches.

Express branches

Express branches are usually hosted offices located in remote areas where there are no full-service branches nearby.

Our express branches have consultants who can assist in sending through any required documentation.
